

This is a non-sprung divan option which provides a firmer feel. It has a layer of white cotton felt for extra comfort. The divan is fitted with free running castors. Glides are also available.

The firm edge, sprung centre divan incorporates the Ri multi-coil divan spring with timber firm edge support, for hotels which prefer a firmer sitting edge.

The deep sprung-edge divan offers extra durability combined with edge to edge mattress support for comfort. The divan is built using the Ri multi-coil divan spring system and is available with a choice of castors and glides.

Shallow, firm or sprung edge divan on legs

Divan Colours

Executive Grey

Stone

Frappe

Cocoa

Anthracite

Woven damask

Optional micro-suede divan fabrics

Foundation & Divan Options

All Ri divans are carefully engineered for added strength and durability. Kiln dried timber is used, with rounded, hardwood corner blocks for added support.
